ODOMETER DISCLOSURE STATEMENT

Federal law (and State law, if applicable) REQUIRES that the transferor state the Odometer Mileage in connection with the transfer of ownership. Failure to complete or providing a false inaccurate statement may result in fines and/or imprisonment.

Hertz Equipment Rental Corporation, the transferor (herein the "Seller"), states that the odometer for the vehicle described above now reads:

ODOMETER READING _____ miles and Seller hereby certifies to the best of its knowledge that it reflects the actual mileage of the vehicle described above, unless one of the following statements is checked:

- Seller hereby certifies that to the best of its knowledge, the odometer reading stated above reflects the amount of mileage in excess of its mechanical limit of 99,999 miles (999,999 miles, if a hubodometer) of the above described vehicle.
- Seller hereby certifies that the odometer reading stated above is NOT the actual mileage of the above described vehicle, and should not be relied upon -
*** WARNING - ODOMETER DISCREPANCY ***
The TRUE MILEAGE IS UNKNOWN because _____
- Seller hereby certifies that the odometer was altered for repair or replacement while in its possession and that the mileage registered on the repaired or replacement odometer was identical to that before such service.
- Seller hereby certifies that the repaired or replacement odometer was incapable of registering the same mileage, that it was reset at zero, and that the mileage on the original odometer or the odometer before repair was _____ miles/kilometers.

Buyer hereby certifies under the penalty of perjury that the above information is true and correct to the best of my knowledge and belief.

Inspection Summary	Payment Amount*: \$15.00	Payment Type: CASH
	*This is your receipt. It is valid for 365 days.	Test Counter: 1
	Test ID Number: 311102424141	Software Version: 1.8

Vehicle Information				VIN: 1FDPF80C9SVA09111			
DOL Data Update: NO		License Number: A93724B		License State: WA			
Fuel Type: DIESEL	Vehicle Type: TRUCK		Body Type: N/A		Model Year: 1995		
Manufacturer: FORD	Model: F80		Engine Size: 5.9 L		GVWR: >8,500		
Cylinders: 6	Transmission: AUTOMATIC		Exhaust: SINGLE		AES ID #: N/A		
Odometer: 36249	Lookup Table ID: 0		Equiv Test Wt: 0		Horsepower: N/A		

Inspection Station Information		Station: 3	Lane: 1
Start Date/Time: 12/07/2004 12:55 PM	Operator 1: BOBQ BOB	Operator 2: GEORGED GEORGE	

Gas Cap Test Results		Cap 1: N/A	Cap 2: N/A
Result: N/A	Cap 3: N/A	Cap 4: N/A	

This emission test was performed in accordance with federal regulations on emission tests (40CFR 85 Subpart W) by Agbar Technologies, Inc. for the Department of Ecology.

Test Results		Test Type: DIESEL SNAP	Prescribed Type: DIESEL SNAP
Overall Diesel Snap Result: PASS		Number of Snaps: 3	
	Exhaust Pipe 1	Exhaust Pipe 2	
Opacity Reading (%):	21	N/A	
Opacity Limit (%):	40	N/A	
RPM:	0	N/A	
Opacity Result:	PASS	N/A	

Repair Information		Emission Specialist #:	Date/Time:
By signing this form, I am acknowledging that I diagnosed/attempted repairs to this vehicle, after the initial test failure, in an effort to reduce failing emission reading(s). I am currently an Ecology Authorized Emission Specialist.			
Printed Name:		Signature:	

MAKING FALSE STATEMENTS TO OBTAIN A CERTIFICATE OF COMPLIANCE/ACCEPTANCE IS A VIOLATION OF WAC 173-422-190

First Test

PASS: If "PASS" is printed in the "Final Results" box on the front of this form, your vehicle passed the emission test. Please see the Vehicle Renewal section.

FAIL: If "FAIL" is printed in the "Final Results" box on the front of this form, your vehicle failed the emission test. Having your vehicle repaired to pass an emission check may increase mileage, performance and reliability. The first retest is free within the applicable vehicle license year. To qualify for a repair waiver, take your vehicle to an Ecology Authorized Emission Specialist for diagnosis and/or repairs. Please refer to the Authorized Emission Specialist Listing given to you at the test station for further guidance.

Retest

PASS: If "PASS" is printed in the "Final Results" box, please see First Test Pass above.

FAIL: If "FAIL" is printed in the "Final Results" box on the front of this form, your vehicle has failed an emission retest. There is a charge for each additional retest; or, if your vehicle qualifies, request a repair waiver from the test station office. See the "Authorized Emission Specialist Listing" you received with your initial failure for further information. If your vehicle has failed more than once, and if after reading the information you still have questions, call the phone number printed on the front of this form.

Note: The state standards for carbon monoxide (CO) and hydrocarbons (HC) are the MAXIMUM allowable. CO + carbon dioxide (CO₂) must be equal to or greater than 6% or the HC and CO emission samples are inadequate, and not printed. State standards are intended to identify those vehicles which would benefit most from proper adjustment and/or repairs. For proper adjustment and optimum emission levels, vehicles should be set to manufacturer's specifications. Vehicles with engines in good condition, properly adjusted to the manufacturer's specifications, and at normal operating temperature should easily pass the test.

Vehicle Renewal

If your "Test Results" box indicates pass or waive, you may renew your license. This can be done by mail, in person, or electronically. If you mail this form in for renewal, please make a copy for your records.

Certificate of Acceptance (COA - Repair Waiver)

Please note that owners of newer vehicles may be able to obtain emission related warranty repairs without charge.

A repair waiver can be obtained at any test station if all of the following apply:

- An Ecology Authorized Emission Specialist performed diagnosis and/or repairs, at an Ecology authorized facility, aimed at reducing the vehicle's failed emission reading(s) or diagnosed and/or repaired OBDII failures between the initial and last inspection.
- Both of the following are given to the test station:
 - A vehicle test report with the repair information section completed by the Specialist.
 - An original pre-printed and numbered repair invoice/receipt identifying your vehicle. This invoice/receipt must show your vehicle's after-repair emission readings and must be signed and dated, including the Specialist's name and number.
- The actual costs of your vehicle's repair equal or exceed:
 - \$100 for a 1980 or older vehicle
 - \$150 for a 1981 or newer vehicle
 - Coupons or discounts will not apply.
- Your vehicle passes a visual inspection by the test station to determine:
 - All emission control components are in place and operational; and
 - The correct engine is in your vehicle.
- If a waiver is issued, see the Vehicle Renewal section.
